

Bass Valley Children's Centre

Issue 3 – March 2017

Project Information

As these photographs show, the Children's Centre is going up at a rapid rate. Congratulations to TS Constructions who are currently ahead of schedule and anticipate the building will be at lockup by the end of March! On the flip side, once the building is enclosed we won't see much progress as it will all be behind the walls!

Internal building materials and colours have been chosen and ordered. Once these start being installed the internal personality of the building will really begin to take shape.

Directional arrows are being painted in the car park to assist with traffic flow, and speed humps installed in the driveway to ensure traffic is kept to a safe speed.

Thank you to Michael at Coastal Aerial Photography for the aerial shots – they certainly give us a different perspective of the building!

What's Coming up?

March 2017 – service rough-in works

April 2017 – rendering of external cladding

May 2017 – external painting and internal finishes such as plastering and joinery works

June 2017 – internal painting, services fit off and commissioning of services

July 2017 – floor coverings and building handover

Workplace Safety

Temporary fencing and appropriate site control measures will stay in place throughout construction. For your own safety and that of others, access to the building site is restricted. Our contractors and staff will notify anyone who may be impacted during construction works.

We appreciate that these works may present an inconvenience and we ask for your patience during these times. Our contractors will make every effort to minimise disruptions to motorists and community members.

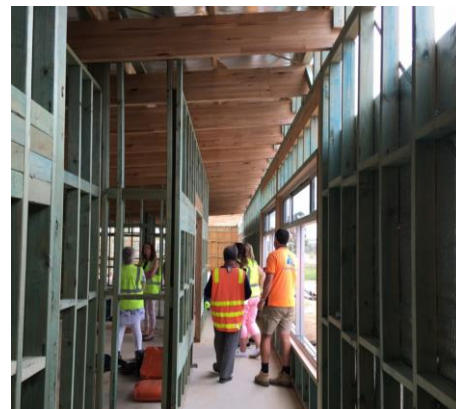

Site visit – BVCC's Committee

As a recognition of the great work the Bass Valley Children's Centre Committee have done over the years to get this fantastic building happening, they were invited to a sneak peek of the building on Thursday, 16 February.

There were many excited comments from the mothers about whose children would be in what room!

Other comments were about the size of the children's rooms and the wonderful space in the community room. February 2018 can't come soon enough to see the families and children using the new building.

Thank you to Amber Rees for supplying the photos.

Where can I get more information?

For information or assistance please contact:

- Bass Coast Shire Council's Manager Community Strengthening
 - Antoinette Mitchell; or
- Bass Coast Shire Council's Contract Superintendent
 - Ravi Raveendran
- Tel: 1300 BCOAST (226 278) or (03) 5671 2211 (all hours)
- Email: basscoast@basscoast.vic.gov.au
- Website: www.basscoast.vic.gov.au

To report any site matters please refer to the Contractor's contact details on the sign that is displayed on site.
